

Production Application Guide

Google Play Store

Congratulations! Testing Complete

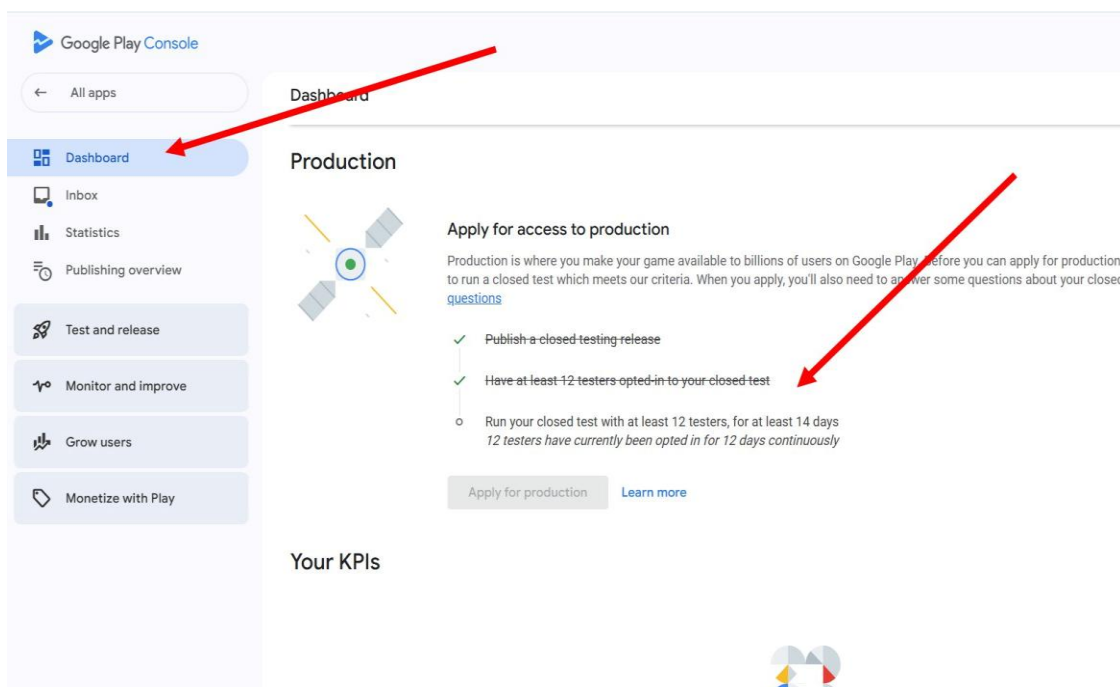

Thank you for trusting my service throughout the closed testing process. Your app has successfully completed the 14 day testing period and is now ready to apply for production access on Google Play.

This guide will help you complete the production application questionnaire. I have prepared sample answers for each question that you can use directly or customize based on your app.

Prepared by: **Kefayatullah** | Fiverr: fiverr.com/kefayatkhadim

How to Apply for Production

1. Log in to your **Google Play Console** and select your app.
2. Click on **Dashboard** in the left sidebar.
3. Under the "Production" section, you will see the **Apply for production** button.
4. Click the button and complete the questionnaire using the answers provided below.

Click "Apply for production" on your Dashboard

⚠ Important: The production questionnaire is a crucial step. Google reviews these answers carefully. You can use my sample answers directly or slightly customize them to better match your specific app.

Section 1: About Your Closed Test

Q1. How did you recruit users for your closed test?

(For example, did you ask friends and family, or use a paid testing provider?)

☒ **Sample Answer:**

I recruited testers through friends, family, colleagues, and online communities. I also reached out via social media and forums related to my app category. This diverse approach helped gather feedback from different types of users who might use my app.

Q2. How easy was it to recruit testers for your app?

Options:

- ☐ Very Difficult
- ☐ Difficult
- ☐ Neither difficult nor easy
- ☒ **Easy** ← Recommended
- ☐ Very easy

Q3. Describe the engagement you received from testers during your closed test

☒ **Sample Answer:**

Testers were highly engaged throughout testing, actively exploring all features and providing valuable feedback on functionality and UX. Many used the app daily and shared thoughts on improvements. Their input helped me identify areas needing attention and make meaningful updates.

Section 2: About Your App

Q4. Who is the intended audience for your app?

Sample Answer:

My app is designed for *[describe your target users, e.g., "individuals aged 18 to 45 who are looking for an easy way to manage their daily tasks" or "fitness enthusiasts who want to track their workouts"]*. The app caters to both casual users and those who need it for regular use in their daily activities.

 **Customize this:** Replace the bracketed text with a description of your actual target audience.

Q5. Describe how your app provides value to users

Sample Answer:

My app provides value by *[describe your app's main benefit, e.g., "helping users save time with automated task management" or "making it easy to discover new recipes and plan meals"]*. It offers a user friendly interface that makes it easy for anyone to get started. Key features include *[list 2-3 main features]*.

 **Customize this:** Describe your app's unique value and main features.

Q6. How many installs do you expect your app to have in the first year?

Options:

- ☐ 0 - 10k
- ☒ **10k - 100k** ← Recommended for most apps
- ☐ 100k - 1M
- ☐ 1M+
- ☐ I don't know

Section 3: Production Readiness

Q7. What changes did you make to your app based on what you learned during your closed test?

☒ **Sample Answer:**

Based on tester feedback, I improved the UI for more intuitive navigation, fixed reported bugs, and enhanced overall performance. I also addressed usability issues and made the app more responsive. Testers confirmed these changes significantly improved their experience.

Q8. How did you decide that your app is ready for production?

☒ **Sample Answer:**

After completing 14-day testing with multiple testers, I gathered their feedback. Testers found the app stable, easy to use, and valuable. I addressed major issues and released updates during testing. The positive response confirmed my app is ready for a wider audience.

Q9. Provide a summary of the feedback that you received from testers

(Include how you collected the feedback)

☒ **Sample Answer:**

Testers gave positive feedback on functionality and UX, appreciating the clean interface and smooth performance. Some suggested minor improvements which I implemented in updates. Feedback came through direct chats, in-app options, and observing usage. Testers recommended the app for production.

Q10. What did you do differently this time? (If re-applying)

This question only appears if you have applied for production before.

☒ **Sample Answer:**

This time I focused on gathering and implementing feedback throughout testing. I actively engaged with testers to understand their needs and made continuous improvements. I also ensured the app met all Google's requirements before applying for production.

Final Tips

- ✓ **Be patient** after submitting. Google may take a few days to review your application.

Thank You!

It has been a pleasure working with you on this project. I wish you great success with your app on the Google Play Store!

If you found my service helpful, I would really appreciate your honest feedback on Fiverr. Your review helps me grow and serve more clients like you.

Best regards,

Kefayatullah
